

The Starling Handbook

Daniel Sperl

Table of Contents

Preface	1
What this book covers	1
Reader Feedback & Errata	2
Acknowledgments	2
1. Getting Started	3
1.1. Introduction	3
1.2. What is Adobe AIR?	3
1.3. What is Starling?	5
1.4. Choosing an IDE	6
1.5. Resources	12
1.6. Hello World	15
1.7. Summary	18
2. Flappy Starling	19
2.1. The Blueprint	19
2.2. Starting Point	20
2.3. Organizing the Code	25
2.4. Adding the Bird	29
2.5. Scrolling	32
2.6. Physics	35
2.7. Game Phases	40
2.8. Obstacles	46
2.9. Collision Detection	53
2.10. Score Display	57
2.11. Title Screen	62
2.12. Sound	68
2.13. Deployment	72
2.14. Summary	75
3. Basic Concepts	76
3.1. Configuring Starling	76
3.2. Display Programming	83
3.3. Textures & Images	91
3.4. Dynamic Text	98
3.5. Event Handling	102
3.6. Animations	113
3.7. Asset Management	124
3.8. Fragment Filters	128
3.9. Meshes	132
3.10. Masks	140

3.11. Sprite3D	142
3.12. Utilities	145
3.13. Summary	148
4. Advanced Topics	149
4.1. ATF Textures	149
4.2. Context Loss	154
4.3. Memory Management	158
4.4. Performance Optimization	166
4.5. Custom Filters	175
4.6. Custom Styles	184
4.7. Distance Field Rendering	193
4.8. Summary	197
5. Mobile Development	199
5.1. Multi-Resolution Development	199
5.2. Device Rotation	212
5.3. Summary	213
6. Pro Tips	214
6.1. ActionScript 3	214
6.2. Display Objects	221
6.3. Textures	232
6.4. Visual Effects	237
6.5. Miscellaneous	252
6.6. Summary	257
7. Extensions	258
7.1. Particle System	259
7.2. Dynamic Lighting	260
7.3. Texture Mask	263
7.4. Feathers	264
7.5. Starling Builder	272
7.6. Summary	283
Epilogue	285
Flock	285
